## THE 9th ANNUAL KIDS' CHARITY GOLF CLASSIC FOR AUTISM

**AUTISM** is a lifelong disability affecting at least 1 in every 165 children. Symptoms usually appear in the first 30 months of life. Although children with Autism look just like our own kids, they have serious problems with communication, social interaction & behaviour. Its causes are unknown & there is currently no known cure. Autism doesn't have multi-million dollar research funds or powerful fundraisers. What it continues to need are extra-ordinary people like you, who care enough to make a difference. To learn more about Autism, contact the association at (416) 246-9592 / [www.autismontario.com](http://www.autismontario.com) / Reg. No. 11924 8789 RR0001
